

## Undergraduate Internship and Research Symposium – 2016

The “Undergraduate Internship and Research Symposium – 2016” organized by the Faculty Internship Committee and Faculty Undergraduate Research Committee of the Faculty of Management, University of Peradeniya was held on March 14, 2017 at the Faculty Auditorium. The Vice Chancellor, Deputy Vice Chancellor, Dean – Faculty of

Management, Deans of other Faculties, Academic Staff and Industry Experts embraced the occasion.

Faculty’s first “Undergraduate Internship and Research Symposium - 2016”, which provided the platform for our undergraduates to showcase researching skills through presenting the results they gained through the project and research, is a key milestone in the Faculty’s journey.

While the purpose of the independent Research project is to provide a vibrant academic platform for both BBA and B.Com final year undergraduates to enhance their competence in research, the internship programme is offered to BBA final year undergraduates with the objective of providing an exposure to the industry and to enhance their soft skills.

Two publications were launched in parallel to the event namely “Undergraduate Research Symposium – 2016” which is a collection of selected research briefs and “Management Internship Diaries 2015 - 2016” which is a collection of write-ups on the internship experience of best students from each Department of the Faculty.

The best presenters were selected from both research and internship. Best intern was Ms. O. Dissanayke from the Department of Operations Management and Best Research student was Ms. A.M.J.C Nawarathne from the B.Com Degree program.
