About the University

The University of Peradeniya, the successor to the University of Ceylon, established in Colombo on 1st of July 1942, is the oldest and largest University in the country. The faculty of Arts of the University of Ceylon was moved to Peradeniya on 06th October 1952 and marked the formal establishment of the University of Ceylon, Peradeniya. Located on a site of natural beauty about 8 kilometers from the city of Kandy in the Central Province, spread across 1947 acres of land and set in a breathtakingly beautiful location, the University of Peradeniya offers an experience unparalleled among Universities in Sri Lanka- be it education, residential life, sports or culture.

The University has expanded over the past 75 years, both quantitatively and qualitatively as a great center of learning, and acquired international recognition and a unique reputation in the country. The number of Faculties has increased from four in 1942, to nine at present: Agriculture, Allied Health Sciences, Arts, Dental Sciences, Engineering, Management, Medicine, Science and Veterinary Medicine & Animal Science. The University also comprises of three postgraduate institutes, Post Graduate Institute of Agriculture (PGIA), Post Graduate Institute of Science (PGIS) and Post Graduate Institute of Humanities and Social Sciences (PGIHS).

The University of Peradeniya was designed as a residential University to provide facilities to the majority of internal students, academic and non-academic staff. Twenty two halls of residence that provide residential facilities to over 75% of the internal undergraduate student population, a Health Centre, places of worship along with activities ranging from sports to culture with a large number of societies catering to the interests of the different cross sections of its community makes the University of Peradeniya the most attractive center for higher learning in the country among students as well as aspirants to the staff.

The academic programmes of the University of Peradeniya are supported by four important learning support services: University of Peradeniya Library Network, the Information Technology Centre (IT Center), the Career Guidance and Counseling Unit, and the English Language Teaching Unit (ELTU). Several other Centers and Units are also established to perform specific training and service functions, and they design and offer Diploma and Certificate level courses and various technical and professional services primarily on a fee-levying basis.

History of the Faculty

University of Peradeniya has a long history of management education. The Department of Economics, Commerce & Statistics in the Faculty of Arts commenced teaching management as early as 1962. Since then until 2002 management education at Peradeniya remained under the purview of that Department. As there was no mandate to accept students from the GCE Advanced Level Commerce Stream, the normal practice was to convert students from Arts to Commerce, based on their aptitudes shown in the first year Commerce Examination. The "Commerce Section" of the Department of Economics continued to teach the B.Com degree program whereas other universities established Faculties of Management.

The revolution began in 1999 as a committee was appointed to look into possibilities to reform the 'Commerce Section' into a Department. In consequence, in the year 2002 the University of Peradeniya established a separate Department – The Department of Management Studies. The objectives of establishment of the Department of Management Studies were to improve standards of the existing B.Com degree program and the Management Component of the BA (General) degree program, to develop new Management degree programs for undergraduate and postgraduate levels, and to contribute significantly to inter-faculty teaching programs. During the past 13 year period since its establishment, the Department of Management Studies through achievement of those objectives gained much importance and fame within the University.

The ultimate target was reached in March 2015 through establishment of the Faculty of Management. At the initial stage the Faculty operates with five Departments and at the second stage three more Departments will be added and be teaching 12 degree programs.

English Language Teaching Unit, Faculty of Management

Dear students,

It is with great pleasure that I warmly welcome you all to the English Language Teaching Unit of the Faculty of Management, University of Peradeniya. The English Language Teaching Unit of the faculty was established in 2015 and it offers meticulously designed courses to undergraduates of varying competencies. This course series, which is titled “English Language for Management (ELM)”, is a compulsory component of the degree program.

The English Language program conducted by the ELTU of the faculty is pedagogically and epistemologically designed in line with progressive practices pertaining to English Language Teaching. Up-to-date student-centered learning, problem based learning and outcome-based teaching/learning methodologies are prioritized to ensure that the undergraduates get the maximum benefit out of the courses offered as well as extra-curricular activities and events conducted by the ELTU.

The ELM courses are designed to meet the demands of the global capital circuit as well as the needs of the academia. The objective of the ELT program is to enable undergraduates to acquire a high competency level in English within the shortest possible period of time and also to assist them to get accustomed to challenging and dynamic professional environments that they will encounter in the future. In the meantime, the ELTU ensures that even the weakest students are allowed sufficient time to gain a profound knowledge in English.

The performance-based credit-hour system, where the competence of students at the entry level will determine the number of courses required to attain the minimum competence to graduate from the total of 24 credit-hours required, is a novel introduction which ensures that negative reinforcement will be avoided when carrying out the ELT program.

I sincerely hope that you will cooperate with our unit to enhance your English language competencies in this journey of four years.

Program Regulations

Program Regulations

1. **Academic year:** An academic year consists of two semesters. The semester timetable may be adjusted to compensate for the loss of week days due to public holidays by allocating additional days.
2. **Semester:** Semester is a half-year term lasting 15 weeks each. Usually semesters are defined as the first semester and the second semester of a particular academic year.
3. **Course, Course Unit and Course Code:** Course is a subject offered in an academic program identified by a course title. A course unit is a complete course taught within a semester generally with three contact hours per week. Course unit can also be offered with a minimum of one contact hour or more than three contact hours. Course code is a three letter and four digit prefix to each course.
4. **Contact Hour:** A contact hour is defined to include formal lectures, tutorials, discussion and review classes, practical classes or any other form of acceptable academic interaction with the students. The lecturer shall decide how to utilize contact hours among various forms of interactions subject to contact hour specifications given in the syllabus. Two hours of practical work is equivalent to one contact hour. Weekly contact hours are converted into course credits.
5. **Credit & Credit Value:** The abstract value assigned to a course on the basis of contact hours per week is identified as a credit. A course that has three contact hours is a three credit course. Thus one credit is 15 contact hours per semester. A three credit course shall have three contact hours per week and thus 45 contact hours per semester. Six hours of industrial training/ dissertation/ research/ are considered as one contact hour. Departments may offer courses in the range of one to four credits in a semester based on the nature of a course. Dissertation and Internship are exceptions.

6. **Common and Specialization Courses:** All the courses offered in the year 1 are common courses and students must offer such courses without any option. Students shall be allowed to select a field of specialization at the beginning of year 2 based on the specialization choice and performance in the year 1. Specialization courses are offered in the years 2, 3 and 4 in the degree program. In addition, students must offer common courses offered in the years 2, 3 and 4 regardless of the specialization area. Depending on the requirement of a specialization area, students may also be required to enrol for the courses offered in other specialization areas. Students shall not be allowed to change the field of specialization once selected.
 - 6.1 **Elective or Optional Courses:** Elective or optional courses are offered in each specialization area from years 2 to 4 and students will have to offer such courses on top of the core courses to earn the credits requirements in each semester. Unlike core courses elective or optional courses are not mandatory but they must be related to the specialization of the students unless otherwise specified in the structure of the degree program.
7. **Non-credit Courses:** The option of non-credit (non-GPA) courses provides an opportunity for the years 3 and 4 students to take additional courses of their interest, which are not required for the respective fields of specialization. The maximum number of non-credit courses that a student may offer during the academic program shall be limited to four i.e. one per semester. Offering courses of one level up or down is not allowed. A student who is offering a non-credit course must fulfill all the requirements of that course. Non-credit courses will not be counted for calculating the Grade Point Average (GPA). They will be listed in the transcripts with their relevant grade point.
8. **Audit Courses:** A student can audit a particular course with the consent of the lecturer, who shall prescribe what course requirements, if any, should be satisfied by the student. Audit courses will not be counted for calculating the GPA nor listed in the transcripts. A standard letter shall be issued by the Office of the Dean on the request of the relevant lecturer through the

Head of the department to indicate that the student has audited the course in consultation with the lecturer. A letter shall be issued only to those students who have fulfilled the 80% attendance requirement in the audited courses.

9. **Grade Point and Grade Point Average:** The grade point is obtained after calibrating the actual marks (0-100) obtained by a student into the scale of 0-4. Grade Point Average (GPA) indicates the average of all the grade points obtained for courses. This can be calculated for a semester or for the entire academic program. The final result obtained by a student shall be determined on the basis of the Grade Point Average for the whole degree program. The GPA shall be calculated to the second decimal place and it is an indicator of the overall academic performance of the student.
10. **Courses and Years:** Courses are offered from year 1 to year 4. In order to complete the degree, students must offer the required number of courses from each year as specified in the academic program. Course levels indicate the progressive years of the program. The year-wise course distribution is identified by the course code as year 1 courses (1000-1299), year 2 courses (2100-2299), year 3 courses (3100-3299) and year 4 courses (4000-4299).
11. **Maximum number of credits per semester:** The maximum number of credits that may be offered by a student as proper per semester is 19. There shall be no limit for those who retake courses for the relevant semester.
12. **Registration for courses:** Students must register for courses within 7 days from the first day of the semester by using the duly completed appropriate form.
 - 12.1 **Adding and dropping of courses:** A course can be added or dropped (withdrawal) within two weeks (14 days) from the first day of the semester. When adding a course, the student must obtain authorization from the lecturer and the relevant department. If a student fails to complete a course which has not been recorded as dropped (withdrawal), it will be counted for the degree program and a grade of E will be awarded.

புள்ளிகள்	தரம்	தரப்புள்ளி	புள்ளிகள்	தரம்	தரப்புள்ளி
80 - 100	A (or) A+	4.0	45 - 49	C	2.0
70 - 79	A-	3.7	40 - 44	C-	1.7

Thieves, River and Infectious Diseases

Students of the campus are vulnerable to many risks and hazards. Knowing these risks would be useful to be safe throughout the university life. Ragging is the main misfortune that students may face first and foremost. However over the past few years there has been a dramatic reduction in instances of ragging. Ragging is prohibited in the university. Students are expected to report incidents of ragging to the appropriate personnel (student counselor, staff members). This will enable the university to take necessary action against the culprit.

Occasionally, instances of robbery are reported within the campus, especially in residential halls. There is a 24-hour security service for every residential hall that helps minimize these occurrences. It is advisable to lock the room when away and while sleeping.

Spread of infectious diseases occurs sporadically as the university host a large number of students from all parts of Sri Lanka. The risk is minimal when compared to other universities of the country due to adequate space. In the event of sickness, residential treatment may be obtained through the Health Centre that offers a 24-hour service for emergencies.

Some incidents of drowning have been reported in the Mahaweli River. Therefore, it is necessary to take adequate precautions. It is advisable to refrain from bathing in the Mahaweli River. Students are urged to take sufficient care when and if they choose climb Hanthana.
