About the University

The University of Peradeniya, the successor to the University of Ceylon, established in Colombo on the 1st of July 1942, is the oldest, largest and one of the most progressive Universities in the country. The Faculty of Arts of the University of Ceylon was moved to Peradeniya on the 06th of October 1952 and marked the formal establishment of the University of Ceylon, Peradeniya. Located on a site of natural beauty about 8 kilometers from the city of Kandy in the Central Province, spread across 700 hectares of land and set in a breathtakingly beautiful location, the University of Peradeniya offers an experience unparalleled among Universities in Sri Lanka - be it education, residential life, sports or culture.

The University has expanded over the past 83 years, both quantitatively and qualitatively as a great center of learning, and acquired international recognition and a unique reputation in the country. The number of Faculties has increased from four in 1942, to nine at present: Agriculture, Allied Health Sciences, Arts, Dental Sciences, Engineering, Management, Medicine, Science and Veterinary Medicine & Animal Science. The University also comprises of four postgraduate institutes namely, Postgraduate Institute of Agriculture (PGIA), Postgraduate Institute of Science (PGIS), Postgraduate Institute of Humanities and Social Sciences (PGIHS) and Postgraduate School of Medical Sciences (PGSM).

The University of Peradeniya was designed as a residential University to provide facilities to the majority of internal students, academic and non-academic staff. Twenty-three halls of residence that provide residential facilities to over 75% of the internal undergraduate student population, a Health Center, places of worship along with activities ranging from sports to culture with a large number of societies catering to the interests of the different cross sections of its community make the University of Peradeniya the most attractive center for higher learning in the country among students as well as aspirants to the staff.

The academic programmes of the University of Peradeniya are supported by four important learning support services: University of Peradeniya Library Network, the Information Technology Centre (IT Center), the Career Guidance and Counseling Unit, and the Department of English Language Teaching (DELT). Several other Centres and Units are also established to perform specific training and service functions, and they design and offer Diploma and Certificate level courses and various technical and professional services primarily on a fee-levying basis.

Based on the overall performances, University of Peradeniya is ranked as the number two University in Sri Lanka in QS regional ranking (2024). Furthermore, the Times Higher Education World University Ranking in 2024 has placed University of Peradeniya as the second in Sri Lanka and in 1201-1400 band in World University Ranking. Furthermore, University of Peradeniya has been recording the highest number of SCI research publications and Presidential Awardees for scientific research publications.

Structure of the English Language for Management (ELM) Courses

Courses offered by the English Language Teaching Unit

The English Language Teaching Unit (ELTU) strives to improve the English language skills of the students while helping them overcome their inhibitions related to the use of English. Hence, the ELTU offers an Intensive Course in English and a Certificate Course in Business English to the new entrants before the commencement of their BBA (Honors) degree programme and an English Language for Management (ELM) programme during the said degree programme.

Intensive Course in English

The ELTU conducts a Placement Test in English to the new entrants of the Faculty to determine their placement (Basic/Intermediate/Advanced) in the Intensive Course in English. During the Intensive Course in English, the students are given the opportunity to develop their English language skills and obtain a general understanding of the university education system. At the end of the Intensive Course in English, an Achievement Test is administered which serves as the qualifying examination for the students to determine their placement in the ELM programme and to obtain exemptions in the ELM programme depending on their performance at the exam (The eligibility criteria for exemptions is illustrated in the table below).

Certificate Course in Business English

The AHEAD Certificate Course in Business English is offered to the new entrants of the Faculty of Management prior to the commencement of their academic programme. Funded by the AHEAD grant, the primary objective of this arrangement is to enhance the English language skills of fresh undergraduates, especially with exclusive reference to the key concepts, terms, and applications in the field of business. This course is administered under the Accelerating Higher Education Expansion and Development (AHEAD) project, as part of the collaborative efforts of the Government of Sri Lanka and the World Bank, with the aim of supporting the higher education sector of the country. The course has been designed incorporating advanced learning strategies, inspiring students to learn the language at their own pace in a flexible online platform. The duration of the course is eight weeks, and following the successful completion of all the modules in due time, the students are qualified to obtain a certificate. Faculty Moodle has been updated with the course modules which also consist of a range of interactive teaching-learning features including quizzes, forums, chat features, etc.

English Language for Management (ELM) Programme

The six ELM courses are offered in three levels: 100 level (ELM 101 and ELM 102), 200 level (ELM 201 and ELM 202), and 300 level (ELM 301 and ELM 302). The students who do not obtain any exemptions in the Achievement Test are offered all ELM courses, one course per semester in a span of three years. The students who obtain exemptions for 100-level courses are offered only the 200 and 300 level ELM courses and they can complete their ELM Programme within 2 years. Likewise, the students who obtain exemptions for both 100 and 200-level ELM courses are offered only 300-level ELM courses and thus, they can complete the ELM Programme in one year. (The time span specified for the ELM courses is a general one and it may vary for each student depending on their performance).

05. Programme Regulations

Programme Regulations

1. **Academic Year:** An academic year consists of two semesters, and a semester consists of 20 weeks, including the time for the teaching programme, study leave and all examinations work.
2. **Semester:** Semester is a half-year term lasting 15 weeks each. Usually, semesters are defined as the first semester and the second semester of a particular academic year.
3. **Course, Course Unit and Course Code:** Course is a subject offered in an academic Programme identified by a course title. A course unit is a complete course taught within a semester generally with three contact hours per week. Course unit can also be offered with a minimum of one contact hour or more than three contact hours. Course code is a three letter and four-digit prefix to each course.
4. **Contact Hour:** A contact hour is defined to include formal lectures, tutorials, discussion and review classes, practical classes or any other form of acceptable academic interaction with the students. The lecturer-in-charge shall decide how to utilize contact hours among various forms of interactions subject to contact hour specifications given in the syllabus. Two hours of practical work is equivalent to one contact hour. Weekly contact hours are converted into course credits.
5. **Credit & Credit Value:** The abstract value assigned to a course on the basis of contact hours per week is identified as a credit. A course that has three contact hours is a three-credit course. Thus, one credit is 15 contact hours per semester. A three-credit course shall have three contact hours per week and thus 45 contact hours per semester. Six hours of industrial training/ dissertation/ research are considered as one contact hour. Departments may offer courses in the range of one to four credits in a semester based on the nature of a course. Dissertation and Internship are exceptions.
6. **Common and Specialization Courses:** All the courses offered in the year 1 are common courses and students must offer such courses without any option. Students shall be allowed to select a field of specialization at the beginning of year 2 based on the specialization choice and performance in the year 1. Specialization courses are offered in the years 2, 3 and 4 in the degree Programme. In addition, students must offer common courses offered in the years 2, 3 and 4 regardless of the specialization area. Depending on the requirement of a specialization area, students may also be required to enrol for the courses offered in other specialization areas. Students shall not be allowed to change the field of specialization once selected.
 - 6.1. **Elective or Optional Courses:** Elective or optional courses are offered in each specialization area from years 2 to 4 and students will have to offer such courses on top of the core courses to earn the credits requirements in each semester. Unlike core courses elective or optional courses are not mandatory but they must be related to the specialization of the students unless otherwise specified in the structure of the degree Programme.

7. Non GPA Courses: The option of non-GPA courses provides an opportunity for the years 3 and 4 students to take additional courses of their interest, which are not required for the respective fields of specialization. The maximum number of non-credit courses that a student may offer during the academic Programme shall be limited to four i.e. one per semester. Offering courses of one level up or down is not allowed. A student who is offering a non-credit course must fulfill all the requirements of that course. Non-credit courses will not be counted for calculating the Grade Point Average (GPA). They will be listed in the transcripts with their relevant grade point.

8. Audit Courses: A student can audit a particular course with the consent of the lecturer, who shall prescribe what course requirements, if any, should be satisfied by the student. Audit courses will not be counted for calculating the GPA nor listed in the transcripts. A standard letter shall be issued by the Office of the Dean on the request of the relevant lecturer through the Head of the department to indicate that the student has audited the course in consultation with the lecturer. A letter shall be issued only to those students who have fulfilled the 80% attendance requirement in the audited courses.

9. Grade Point and Grade Point Average: The grade point is obtained after calibrating the actual marks (0-100) obtained by a student into the scale of 0-4. Grade Point Average (GPA) indicates the average of all the grade points obtained for courses. This can be calculated for a semester or for the entire academic Programme. The final result obtained by a student shall be determined on the basis of the Grade Point Average for the whole degree Programme. The GPA shall be calculated to the second decimal place and it is an indicator of the overall academic performance of the student.

10. Courses and Years: Courses are offered from year 1 to year 4. In order to complete the degree, students must offer the required number of courses from each year as specified in the academic Programme. Course levels indicate the progressive years of the Programme. The year-wise course distribution is identified by the course code as year 1 courses (1000-1299), year 2 courses (2100-2299), year 3 courses (3100-3299) and year 4 courses (4000-4299).

11. Maximum Number of Credits per Semester: The maximum number of credits that may be offered by a student as proper per semester is 18. There shall be no limit for those who retake courses for the relevant semester.

12. Registration for Courses: Students must register for courses within 7 days from the first day of the semester by using the duly completed appropriate form.

12.1. Adding and Dropping of Courses: A course can be added or dropped (withdrawal) within two weeks (14 days) from the first day of the semester. When adding a course, the student must obtain authorization from the lecturer and the relevant department. If a student fails to complete a course which has not been recorded as dropped (withdrawal), it will be counted for the degree Programme and a grade of E will be awarded.

13. Out of which 30 credits should be earned from the common Programme during the year 1 whereas another 90 credits should be earned from the specialized Programme during the year 2, 3 and 4 (30 credits per year). In addition, the students must earn 24 credits from the compulsory ELM (English Language for Management) courses and 2 credits from the compulsory ICT (Information and Communication Technology) course which are not considered in calculation of credits and GPA (refer to Section 20 and 21 of this document).

Risk and Hazards

Thieves, River, and Infectious Diseases

Students of the campus are vulnerable to many risks and hazards. Knowing these risks would be useful to be safe throughout university life. Ragging is the main misfortune that students may face first and foremost. However, over the past few years, there has been a dramatic reduction in instances of ragging. Ragging is prohibited in the University. Students are expected to report incidents of ragging to the appropriate personnel (student counselor, staff members). This will enable the University to take necessary action against the culprit.

Occasionally, instances of robbery are reported within the campus, especially in residential halls. There is a 24-hour security service for every residential hall that helps minimize these occurrences. It is advisable to lock the room when away and while sleeping.

Spread of infectious diseases occurs sporadically as the University hosts a large number of students from all parts of Sri Lanka. The risk is minimal when compared to other universities of the country due to adequate space. In the event of sickness, residential treatment may be obtained through the Health Centre which offers a 24-hour service for emergencies.

Some incidents of drowning have been reported in the Mahaweli River. Therefore, it is necessary to take adequate precautions. It is advisable to refrain from bathing in the Mahaweli River. Students are urged to take sufficient care when and if they choose to climb Hanthana.
